brunosarahj@gmail.com
PORTFOLIO
sarahjbruno.com

Capable web designer and front-end web developer, with 6+ years experience in delivering high quality web contents and products. Skilled in a variety of technical and creative frameworks. Experienced in both client service and internal stakeholder support. Embodies a work style focused on applying adaptability, critical thinking, and project management skills.

EXPERIENCE

SS&C Technologies, Denver, CO - Web Designer

July 2022 - PRESENT

Designed and developed four scalable, responsive website templates using React, Tailwind CSS, and Next.js—reducing project intake to under 5 business days, while enabling clients to select preferred designs and request custom elements to fit their needs

Enhanced existing websites by integrating dynamic features such as advanced document search, cookie consent popups, and improving usability and compliance

Optimized performance across 30+ client websites by reducing image payloads, upgrading JSON structures, and securing forms—resulting in faster load times and improved site reliability

Proactively improved workflow efficiency and front-end performance by implementing image optimization techniques, achieving 25–35% faster load times without sacrificing quality

Developed and deployed performance-optimized, accessibility-compliant interfaces aligned with UX/UI standards, improving user interaction metrics and enhanced client retention

Collaborated within an agile workflow to deliver front-end features iteratively, using GitHub Actions for CI/CD pipelines to ensure rapid deployment, code quality, and seamless integration across environments

Inova Health System, Fairfax, VA - Web and Digital Media Analyst

Jan. 2019 - July 2022

Developed and maintained 20+ responsive webpages for Inova's public website using Drupal and HTML, supporting user access across 5 hospitals and 430+ care sites

Partnered with 50+ internal clients on requirement gatheringand lead front end design solutioning aligned to business objectives

Built web-ready graphics and assets, using Adobe Illustrator and Photoshop, to enhance site design and improve alignment to organizational goals and brand identity

Lebanon Valley College Student Affairs, Annville, PA - Graphic Design Associate

Jan. 2018 - May 2018

Designed marketing content and apparel lines using Photoshop and Illustrator for college initiatives, contributing to a 300% increase in fundraising and budget growth

Developed and refreshed branding for multiple college organizations by collaborating with stakeholders to gather requirements and deliver visuals aligned with strategic goals and target audiences
